TO UNIFY LIFE AND BIKE

PRODUCT **HIERARCHY**

Our product range features a distinct three-tier hierarchy, carefully designed to align with varying customer needs and preferences. Each tier—good, better, and best—offers a progressive increase in functionality and craftsmanship, ensuring every consumer finds their ideal match.

Drawing inspiration from our Black Country heritage, we've adopted metalworking metaphors to vividly illustrate these tiers:

01

GOOD - **RAW**

The start of a sword's journey and its most elementary state.

RAW product represents our simplest execution, nailing the essentials; tailored for novice riders and those that simply want everyday riding gear.

02

BETTER - **FORGE**

In the forge, raw metal is transformed with heat and force, revealing its potential for strength and purpose.

FORGE products are for riders who have truly found their sense of belonging and know within which tribe they ride. Riders who are looking for heightened quality and features.

03

BEST - **EDGE**

In the final stages of crafting a sword, the highest level of refinement is achieved.

EDGE products are for riders who demand the utmost in both aesthetics and functionality, representing the pinnacle of form and purpose within the product line.

Gecko Green

Trade £

SRP £

A close-up photograph of a red and black plaid shirt. The shirt features a bold, large-scale check pattern in shades of red and black. The fabric has a visible texture, suggesting a cotton or flannel material. A small, dark label with the word "SPADA" in white capital letters is attached to the inner side of the collar. The lighting is dramatic, with strong highlights and deep shadows, emphasizing the folds and texture of the fabric. The background is blurred, focusing attention on the shirt.

DRIFT EVO II - CARBON

Nova Red

Nova Grey

Shell Material: Fibreglass + Carbon

Sizes: Small (XS/S/M) and Large (L/XL/XXL)

Caberg SOS Medical ID Equipped: Enables first responders to quickly access critical medical information in case of an accident.

Visors: Tilting, anti-scratch clear visor and anti-fog Pinlock MAXVISION 70 lens. Includes an integrated anti-scratch sunshade visor controlled via a lateral lever. (DVT)

Fastening: Double D Ring Buckle for secure precise fastening.

Ventilation: Internal air circulation via 2 adjustable vents on the chin guard to avoid misting.
2 adjustable vents on top to channel fresh air inside the helmet.
4 rear extractors to discharge hot and stale air.

Liner: Removable and washable lining with emergency quick release system removable cheek pads that in case of emergency can be removed while the helmet's still being worn without damaging a rider's neck and spine. Includes a removable lower wind stop.

Glasses Seatings: To accommodate glasses comfortably without pressure or discomfort.

Intercom Ready: Compatible with the Caberg Pro Speak Evo communication system.

Homologation: ECE 22.06

Weight: Small Shell: 1350g $\pm$ 50g
Large Shell: 1400g $\pm$ 50g

SRP £

Your ultimate safety companion, securely storing all your crucial medical, personal, and emergency contact information.

With lightning-fast NFC technology, accessing this information is as easy as bringing your smartphone close to your helmet, ensuring you get prompt and precise medical assistance whenever it's needed most.

In the event of an accident, the SOS MEDICAL ID system instantly transmits your exact location to your pre-saved emergency contacts via SMS, providing an extra layer of safety or use your medical information to save your life.

NEW

TANAMI / TANAMI CARBON

Carbon

Shell Material: Fibreglass / carbon

Sizes: Small Shell (XS-S-M),
Large Shell (L-XL-XXL)

Caberg SOS Medical ID Equipped:
Enables first responders to quickly access critical medical information in case of an accident.

Lining: Fully removable and washable, using hypoallergenic and breathable fabrics.

Visors: Anti-scratch clear visor and anti-fog Pinlock MAXVISION 70 lens. Includes an integrated anti-scratch sunshade visor (DVT) and visor central locking system.

Ventilation: Adjustable air vent on the chin guard, featuring a removable cover for personalised comfort. A large top vent with two adjustable openings lets you fine-tune fresh air intake, while two rear extractors - each with removable covers - efficiently expel heat and stale air.

Fastening: Double D Ring Buckle for secure precise fastening.

Homologation: Compliant with ECE 22.06 safety standards.

Intercom Ready: Compatible with the Caberg Pro Speak Evo communication system.

Weight: Tanami - Small Shell: 1530g $\pm$ 50g
Large Shell: 1580g $\pm$ 50g

Tanami Carbon - Small Shell: 1450g $\pm$ 50g
Large Shell: 1500g $\pm$ 50g

PRO SPEAK EVO

With Pro Speak Evo you can enjoy your favorite music in stereo, effortlessly manage your music on the go, and conveniently make and receive phone calls while maintaining crystal-clear digital quality and benefiting from the advanced DSP system for noise suppression.

PRO SPEAK EVO takes communication to the next level. Stay connected with your riding partner or passenger up to a distance of 200 metres, enabling smooth and uninterrupted bike-to-bike conversations. The integrated connectivity and control systems have

been tailored to complement the functionalities of major motorcycle manufacturers like BMW, KTM, Ducati, and more.

Safety is our top priority. Our helmets are homologated to ECE 22.06 standards, and with the Caberg Pro Speak Evo communication system in place, they also meet all the rigorous requirements set by the EU regulation, ensuring you have the utmost protection while enjoying the benefits of our cutting-edge technology.

THE WORLD'S WARMEST BASELAYER®

WELCOME TO ZEROFIT

Designed in Japan, made for the outdoor world, ZeroFit baselayers offer best-in-class innovations and technologies to keep you active outside throughout the year, whatever the weather. From the award winning Heatrub Ultimate and Heatrub Move baselayers for the colder winter months, through to the Ice Weave and Cold Skin baselayers in the heat of the summer, our products are changing the game for motorcyclists and more.

MOVE HEATRUB BASELAYER

- The two-layer construction efficiently and quickly removes sweat from the skin.
- The hollow polyester design and 'LABO' fabric ensures it evaporates off the surface of the garment quickly.
- Athletes will never experience the unpleasant feeling of cold sweat on the body lingering after exercise has ended.
- Incredible freedom of movement due to the stretchable nature of the fabric.

ULTIMATE HEATRUB BASELAYER

- Independently tested and proven to be five times warmer than a standard baselayer
- Instant heat the moment you put it on, doesn't require compression/tightness to keep you warm
- No need for multiple additional layers due to the warmth generated by the innovative Heat Threads on the inside of the garment
- Incredible freedom of movement due to the stretchable nature of the fabric.

ICESKIN BASELAYER

Designed to keep you cool and dry in temperatures up to 40° Celsius.

- Cool Stamp Tech® on the front of the IceSkin delivers cold sensation - and has been independently tested and found to have a QMAX rating of 0.358W/cm².
- The Rhombus Mesh Design on the reverse, featuring an intricate internal hexagonal construction delivers maximum moisture wicking on the back of the baselayer.
- Incredible freedom of movement due to the stretchable nature of the fabric.

COLDSKIN BASELAYER

Independently tested and proven to be three times colder than a standard competitor product.

- Cold from the moment it touches your skin, in temperatures up to 40° Celsius.
- ‘Cold-to-Touch’ (CTT) Technology from Zerofit utilises innovative fibres that are engineered to absorb heat and spread it over the body surface.
- The thin and lightweight fabric disperses sweat rapidly creating a quick dry feeling without stress on the skin or causing a restriction of movement.
- The garment also has a maximum UPF50+ rating offering protection from the sun’s harmful rays.
- The base layer also uses Polygiene StayFresh™ silver ion antibacterial treatment which suppresses 99% of odour-causing bacteria and additionally helps to eliminate sweat odour.

MOVE HEATRUB LEGGINGS

- The Move Leggings feature a 45% polypropylene construction on the inside of the garments as well as a hollow polyester shell that work in tandem to regulate body temperature, so as athletes work harder for longer, they don't overheat in the conditions.
- The two-layer construction efficiently and quickly removes sweat from the skin.
- The hollow polyester design and 'LABO' fabric ensures it evaporates off the surface of the leggings quickly.
- Athletes will never experience the unpleasant feeling of cold sweat on the body lingering after exercise has ended.
- Incredible freedom of movement due to the stretchable nature of the fabric.

SIZES: XS - 3XL

ULTIMATE HEATRUB SOCKS

- Body heat is sealed in thanks to the innovative Heat Threads designed and manufactured in Japan.
- Innovated and engineered to heat the user up instantly.
- Heatrub Ultimate Socks (both Standard and Knee Length versions) features the same material used in the Heatrub Ultimate Baselayer, Leggings and Neckwarmer.
- Unique 'Nano Pods' on the sole offer enhanced grip in the Standard Length Socks.
- Knee Length Socks do not feature 'Nano Pods', making them easier to slip into tight motorcycling, hiking or skiing boots, as well as golf shoes.

SIZES:

Standard: 4-7 / 7-10 / 10-13

Introducing Moto II: the next-generation motorcycle navigation device.

Get to where you're going, and have fun while you're at it, with Moto II's advanced turn-by-turn navigation, live ride stats and speedo.

Waterproof, shockproof, with a 14-hour battery life and available in three beautiful finishes - Black Plastic, Silver or Gunmetal Grey - Moto II is the perfect companion for any ride and integrates seamlessly into any bike cockpit.

Whats included...

- Beeline Moto II/Moto II Metal device
- USB-C Charging cable
- Universal elastic strap mount
- Quickstart guide

Product details:

Superior Display: Enjoy a brighter, clearer view with Moto II's enhanced screen—now with double the resolution and size, featuring colour display, anti-glare, and hydrophobic coatings for optimal visibility under any conditions.

Sleek Design: Tailor-made for your ride, Moto II boasts a stylish, pocket-friendly design with two bezel options to match your motorcycle's look—rugged or retro.

Rugged Build: Waterproof and shockproof, Moto II is adventure-ready, designed to withstand the elements and the road's unpredictability.

Versatile Mounting: Fit Moto II on any bike with our expanded range of easy-to-install mounts, ensuring seamless integration into your cockpit.

Endless Power: Forget battery worries with Moto II's long-lasting charge, months of standby time, and an optional powered mount for on-the-go charging.

Convenient Charging: USB-C connectivity offers hassle-free charging, compatible with your existing cables.

Smart Battery Management: Extend your phone's battery life significantly when navigating with Moto II, ensuring you're always connected.

Glove-Friendly Controls:

Navigate Moto II's interface effortlessly with glove-friendly buttons, designed for accessibility from any mount position.

Advanced Navigation: Get clear, glanceable turn-by-turn directions, speed, and ETA, alongside a simple arrow display for easy decision-making on the move.

Ride Metrics Onboard: Track speed, distance, and time directly on Moto II, keeping you updated in real time.

Multilingual Support: Moto II speaks eight languages, making it the perfect companion for riders worldwide.

Explore with Compass Mode:

Venture off the beaten path with Compass Mode, guiding you directly to your destination for a true adventure.

Safety First: (where available) Stay ahead with speed limit alerts, enhancing your ride safety.

Comprehensive Ride Tracking:

Log every journey with the Beeline app, share routes, or discover new ones with easy GPX import/export.

Optimised Routing: Whether seeking thrills or efficiency, Moto II's routing options ensure every ride is a journey to remember.

Moto II Bar Clamp Mount

Simple and stylish, this black anodised bar clamp mount is perfect for bikes with standard bars. Mount insert can be rotated to different positions to account for swept bar sections.

What's included:

- Metal bar clamp mount
- Spacers for the following bar diameters:
 - 22.2 mm
 - 25.4 mm
 - 28.6 mm
 - 31.8 mm

Trade £

SRP £

Moto II Carry Case

This zipped, EVA hard case has a soft, padded interior with room for your Beeline Moto II and charging cable.

Comes with a handy carabiner clip for keeping your Beeline easily to hand on a bag or belt.

Features:

- Webbed pouch opening half way up on one side of case to ensure accessories stay in place
- Elastic strap on other side of case to hold device in place

Trade £

SRP £

Moto II Mirror & Crossbar Mount

This black anodised metal mount is perfect for mirror stalks or cross bars. You can rotate the clamp, mount head and mount insert positions to find the perfect position for your Moto II.

What's included:

- Metal mirror and cross bar mount
- Spacers for the following bar diameters:
 - 10 mm
 - 12 mm
 - 14 mm
 - 16 mm

Trade £

SRP £

Moto II 4-hole AMPS Mount

Install your Moto II directly onto AMPS standard nav mount plates, or use it to create your own custom mount. The mount can be used with a 3M VHB sticky pad or bolts to secure it onto a flat surface (e.g. car dashboard).

What's included:

- 4-hole AMPS mount
- 3M VHB Adhesive pad (optional for install)

Trade £

SRP £

Moto II to I Mount Insert Adapter

Convert Moto original Bar Clamp and Mirror Mount for use with Moto II devices.

Note that it has four mount 'wing' entry cavities, instead of the two present on the older mount design. Not compatible with Moto original Universal Mount.

What's included:

- Moto II to original Beeline Moto mount adapter insert

Trade £

SRP £

Moto II Universal Mount

Replacement/extra Universal Mount for Moto II.

This simple, low profile, lightweight mount can be attached to almost any bar, whatever the shape or size to securely hold your Moto II.

What's included:

- Elastic bands will work for most bars
- Comes with a grey silicone rubber protective base to help grip tightly and keep your bars in perfect condition

Trade £

SRP £

Moto II Fork Stem Mount

This mount is perfect for motorcycles with 'clip-on' type bars. The base fits into the central hole in a fork stem. Mount your Moto II flush with the bars, or use the included modular parts to adjust the angle and position of the device.

What's included:

- Fork Stem Mount
- Small spacer (12mm to 18.5mm diameter)
- Large spacer (18.5mm to 25.4mm diameter)
- Modular Mount Extender kit
- Quickstart Guide

Trade £

SRP £

Moto II Modular Head Extender

Fully adjustable and with a removable extender, this kit adds extra height and flexibility to Moto II mounts. Build your own custom setup by combining with action camera mounts.

What's included:

- Modular mount insert adapter
- Modular mount extension arm
- Modular mount head
- Quickstart Guide

Trade £

SRP £

Moto II Powered Mount Module

Never worry about your Moto II running out of juice again. This powered mount insert allows any compatible mount* to be converted to effortlessly charge a Moto II whilst riding.

Easy installation

- Connects directly to 12V bike battery terminals
- Adjustable orientation with top or bottom cable exit
- Weatherproof, sealed design with replaceable contact pins
- Auto power switching to prevent flat batteries

* Not compatible with Universal Mount

What's included:

- Powered mount insert
- Extended mount insert bolts
- 2 meter 12V battery terminal cable
- 2 x zip ties

Trade £

SRP £

Moto I to II Mount Insert Adapter

Convert Moto original Bar Clamp and Mirror Mount for use with Moto II devices.

What's included:

- Moto II to original Beeline Moto mount adapter insert

Note that it has four mount 'wing' entry cavities, instead of the two present on the older mount design. Not compatible with Moto original Universal Mount.

Trade £

SRP £

Moto II Ball Mount Adaptor

Compatible with a wide variety of 1-inch ball mounts and clamps, this adaptor allows you to easily position your Moto II with unmatched flexibility.

Sprinta engine oils

What is it?

On today's overcrowded roads, when you're surrounded by traffic and elbow-to-elbow with other motorcyclists, you need to be the best version of you. Always alert, totally focused, and ready to respond. The same is true of your bike. PETRONAS Sprinta with UltraFlex™ technology is engineered to come alive – reacting immediately to flex to the different demands of all your bike's critical areas, providing instant response for exceptional defence and performance so you can get ahead.

Why is it the right choice?

On a motorcycle the lubricant needs to instantly react to the multitude demands of the bike's critical areas: engine, clutch and gears. Conventional oils don't necessarily manage all of these areas all at once.

PETRONAS Sprinta with UltraFlex™ technology is developed to deliver:

Instant performance: it activates instantly, flowing smoothly and consistently to lubricate the engine, surging to the clutch to create grip that prevents slippage and maintains power, and reaching the gears to deliver responsive shifting.

Instant defence: it instantly delivers outstanding deposit and viscosity control to resist stress and heat – protecting moving parts against wear to keep maintenance bills down.

Instant care: it has a formulation that meets the latest global environmental standards. We're committed to sustainable mobility, investing in innovative R&T projects to improve air quality for riders all over the world.

What makes it different?

PETRONAS Sprinta with UltraFlex™ technology is the unique oil formulation that reacts instantly and flexibly – responding to the multitude of demands in all of the bike's critical areas – the engine, clutch and gears – all at once for exceptional defense and performance so you can get ahead.
